

LET SILVER STAG MAKE YOU A KNIFE OUT OF YOUR PRIZED ANTLER!

IT'S AS EASY AS THIS:

1. Cut the BURRE/CROWN handle off your rack approximately 6" to 8" behind the BURRE/CROWN.
2. Measure the DIAMETER of the antler 1" behind the BURRE.
3. Select one of the following 100% American Made SILVER STAG HIGH CARBON TOOL STEEL, or HIGH CARBON DAMASCUS STEEL blade designs that fits your antler's DIAMETER RANGE.
4. SEND your antler to our factory. Include your NAME, PHONE NUMBER, and BLADE CHOICE.
5. Per your request, we will LASER ENGRAVE a name on the antler handle. Please include a NAME and/or DATE to be engraved.
6. After we receive your antler & instructions, we will CALL to confirm. We accept VISA & MASTERCARD payments.
7. Allow TWO WEEKS for delivery.

In two weeks, you will own your own custom American antler knife manufactured from your own prized antler! Your new knife will be the talk of the hunting camp for years to come. One day, you can pass the cherished knife on to a family member.

Your new knife will be accompanied with a handmade leather sheath and a limited lifetime warranty.
